### The Landscape

## 3.1 Biomes

Biomes are parts of the landscape which have a lot of factors in common, such as the blocks they are made of, temperature, humidity, ionizing radiation etc.

- natural biomes
  - deserts
  - steppes
  - meadows
  - forests
  - jungles
  - wetlands
  - rivers
  - lakes
  - oceans
  - ...
- manmade biomes
  - abandoned villages
  - abandoned cities
  - industrial areas
  - toxic areas
  - ...
